DETAILED ACTION

Specification

The amendment filed 6/30/03 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the diameter W has been changed from $1\text{mm} \leq W \leq 100\text{mm}$ into $10\text{mm} < W \leq 100\text{mm}$ and the preferred value of W has changed from $1\text{mm} \leq W \leq 20\text{mm}$ into $10\text{mm} < W \leq 20\text{mm}$ in order to obviate rejection of claims under 35 U.S. C. §102.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 5-12 and 19 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The range of diameter W of nozzle is not supported by the specification as originally filed and the changes made to W in the specification is considered new matter.
